**Survey:** We finished the draft of “Recent progress and trend of predictive visual analytics”. I learnt several experience from writing the survey.

- one blank space between text and left parenthesis.
- many words and phrases can be used to express the similar meaning of “propose”
  - A new (novel, efficient, promising) approach (method, technique) is proposed...
  - By integrating (using, employing) a ..., ...
  - It is found (proven) that ...
  - Another way is to ...
  - There are three (two) ways to ...
  - Other: present, explain, describe, elaborate, highlight, state

- one blank space between “Section” and number
- ways to cite one figure:
  - (Figure 2)
  - (see Figure 2)
  - as shown in Figure 2
  - Figure 2 shows ...

**Netease:** We had four group meetings from Monday to Thursday. Choosing and revising design alternatives→Visiting Netease→Preparing for Idea Evaluation→Online meeting with Winson Peng. Our ideas and designs are refined.

Besides we got more data from Netease. We are now organizing the data, searching for most applicable data for our project. Besides, we are reviewing papers on social network analysis and hoping to build a model for our project on interplay between communication and consumption.
